**COCOANUT OIL MAKES A SPLENDID SHAMPOO**

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulled coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulled coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last every one in the family for months.

"I Don't Feel Good!" That is what a lot of people tell us. Usually their bowels only need cleaning.

**Reckitt's Orderlies** will do the trick and make you feel fine. We know this positively. Take one today. Sold only by us, 10 cents.

## WAR OFFICIALLY REPORTED

## GERMAN STATEMENT.

BERLIN, April 20, by wireless to Sayville, N. Y.:

German sapping attacks in the Champagne country yesterday made progress, while a French attack in the Argonne, north of Le Four de Paris, resulted in failure.

Between the Meuse and the Moselle yesterday witnessed isolated but spirited artillery exchanges. A French attack near Flirey broke down. Near Croix-des-Bois German troops entered the main position of the enemy to the west of Avreucourt and stormed and reoccupied the village of Embervill.

In the Vosges a French attack on Schlieker heights resulted in failure, while the German advance on Hartmann-Wellerkopf gained about 100 yards.

On the eastern front the situation remains unchanged.

## FRENCH STATEMENT.

PARIS, April 20, via London, 2 p.m.:

There have been particularly spirited artillery exchanges in the region of Rheims and in the sectors of the Argonne, north of Le Four de Paris, where there is no news to give out.

## BRITISH STATEMENT.

LONDON, April 20:

A successful action commencing on the evening of the 17th culminated in the capture and complete occupation of an important point known as hill 60, which lies about two miles south of Zillebeke, to the east of Ypres. This

hill dominates the country to the north and northwest.

The successful explosion of a mine under the hill commenced the operations, and many Germans were killed by this. And fifteen prisoners were captured, including an officer.

At daybreak on the 18th the enemy delivered a heavy counter attack against this hill, but were repulsed, with a heavy loss. They advanced in close formation, and our machine-gun battery got well into them.

Desperate efforts were made all day Sunday by the Germans to recover the hill, but they were everywhere repulsed with great loss. In front of the captured position, upon which we are now consolidated in strength, hundreds of dead are lying.

Sunday two more German aeroplanes were brought down in this area. Since the 15th instant the total loss to the enemy is five aeroplanes.

## RUSSIAN STATEMENT.

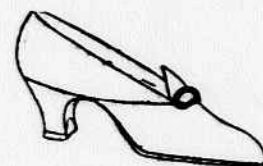

PETROGRAD, April 19, via London, April 20:

Sunday night the enemy suffered great losses in a further attack on our troops at the heights of Telpatch (in the Carpathian mountains). By a counter attack we forced the enemy to evacuate the approaches to our positions, and we captured an Austrian battalion, which surrendered en bloc.

It is confirmed that April 16, when we

captured a height to the southwest of the village of Poles, took 1,155 men and more than 80 officers. We also captured six machine guns.

April 17 we repulsed two fresh attacks in the direction of Stryp. In the other sectors along the whole of our front there was no change.

## Don't Think That Pyorrhea (Riggs Disease)

## Will Never Attack Your Gums

Perhaps You Have It Now!

**PYORRHEA** is inflammation at the roots of the teeth. It destroys the sockets of the jaw in which the teeth set and makes extraction necessary.

A recent test on school children, in one of the largest American cities, showed that 30% of healthy gums contained Amebae parasites similar to those found in Pyorrhea; 50% of healthy gums with decayed teeth, 34% of receding gums with tartar on the teeth, and 94% of spongy receding gums—all contained Amebae. Obviously we are all in danger of Pyorrhea.

Scientists have just discovered that Amebae, similar to the one above, exist around the roots of the teeth in cases

of Pyorrhea; and that the extract of a wholesome South American plant kills these parasites.

Sozodont, which for the past 64 years has been cleaning and preserving the teeth of America, contains this extract.

Therefore it is not wisdom for you and your children to brush daily with Sozodont, instead of dentifrices that do no more than scour your teeth?

Because Sozodont not only cleans, whitens and polishes the teeth—not only tastes cool and refreshing and sweetens the breath, but also attacks germs on teeth and gums and fights Pyorrhea.
